MARSHAL

June 16, 2026

The Honorable Tara S. Green
Chair, Florida Courts E-Filing Authority
Clay County Clerk of Court and Comptroller
825 North Orange Avenue
Green Cove Springs, Florida 32043

Dear Clerk Green:

I am writing to you in your capacity as Chair of the Florida Courts E-Filing Authority to respectfully request that the Authority consider adding a notice on the Florida Courts E-Filing Portal advising filers to carefully review submissions, including those prepared with technology such as generative artificial intelligence.

As you may be aware, in 2024 the Florida Courts Technology Commission discussed a proposal from The Florida Bar to add an AI notice to the E-Filing Portal. The Commission, after reviewing the proposal, declined to recommend implementation to the Authority. More recently, the Supreme Court has been considering the impact of AI on the State Courts System and those who interact with courts. The Court has been informed by input from The Florida Bar's Special Committee on AI Tools and Resources and discussions at recent meetings of the Commission.

In April the Court considered a recommendation from the Bar's Special Committee to add an AI notice to the E-Filing Portal. Given

evolving concerns about potential "hallucinated" authorities or other errors in filings prepared with the assistance of AI, the Court concurred with the Special Committee's recommendation.

Accordingly, on behalf of the Court, I respectfully request that the Board consider, as soon as feasible, the placement of a notice to filers substantially similar to the following:

> *You are responsible for ensuring the accuracy of everything you submit to the court, including documents that have been produced using technology such as generative artificial intelligence. See Rule of General Practice and Judicial Administration 2.515(d).*

The Court defers to the Authority on the placement and manner of such a notice (e.g., a dialogue box before a filer submits a document). The Court believes this approach will foster greater responsibility among users of AI tools, complement standards of accuracy and reliability in legal documents submitted to courts, and promote public confidence in court filings statewide.

Thank you in advance for your consideration. Please do not hesitate to contact State Courts Administrator Eric Maclure at 850-922-9340 or macluree@flcourts.gov about this matter.

Sincerely,

Carlos G. Muñiz
